and generating comprehensive test reports.

Application Development Associate Oct 2021 – Jul 2022
Accenture, Bangalore

- Proficient in Adobe Experience Manager (AEM), an Adobe platform for website development.
- Specialized in developing reusable components and templates using HTML5 within the AEM framework.
- Designed components and templates to be highly adaptable, enabling customization to meet specific customer requirements without extensive modifications.

Internships

Development Mar 2020 – Jul 2020
FAUST PRECAST & INFRA PVT LTD

- This project serves as a comprehensive management solution for addressing all essential functional requirements. It efficiently manages various aspects, including employee information, raw material inventory, work orders, and production details.
- Our web development environment was established using the Apache Tomcat servlet container, ensuring a stable and reliable foundation for the application.
- To establish seamless database connectivity, we employed JDBC, a powerful technology that simplifies interaction between the web application and the database.
- JDBC ensures efficient data retrieval and manipulation while adhering to industry best practices.
- We utilized JSP pages for designing the templates and front-end interface, leveraging JSP's adaptability to seamlessly integrate Java code within HTML templates. This integration enables dynamic web content generation, ensuring a user-friendly and interactive experience.

Front-End Developer Aug 2021 – Oct 2021
Oeson (Formerly FoodByChoice)

Responsibilities:

- Spearheaded the development of an online food-ordering platform. Leveraged React.js to create a dynamic and user-friendly front-end interface. Contributed to crafting a responsive design that enhanced user engagement.
- Played a pivotal role in shaping the front-end architecture for seamless navigation. Demonstrated commitment to delivering high-quality digital solutions.

Achievements

- Advanced to Round 2 of the HackwithInfy competition.
- Secured the 3rd prize in a machine learning hackathon.
- Acclaimed 2nd prize winner in a distinguished singing competition
- Achieved 1st prize distinction in a portrait drawing competition.
